

Socials End of the Year Project:

- 1) You with your partners of up to 4 are to create your own civilization. If the world was relatively more spacious and you were to set up your civilization, where would you start? You cannot use locations already covered, such as the Nile, Euphrates, Tigris, etc. Find somewhere else to start...and keep in mind what you will require to start; the essentials for civilization success.

- 2) Next, you will have to decree who your ruler, emperor or heiress will be by coming up with a name, description, etc...you as a group will agree and come up with this.

- 3) Each person per group will also hold an official role, that serves the ruler. This may include one of the following:
 - Commander of Armies
 - Supreme Lord of Infrastructure
 - High Priest/Priestess
 - Creator of Arts and Recreation
 - Head of Research and Invention
 - Assistant of the Ruler
 - Style and Fashion Coordinator
 - Leader of Health & Medicine

Regarding your appointed title, you are responsible to carry out several duties? You are to provide details regarding your role.

- 4) As a group you are to work together and add your information to the fold out board and create a short video. Each member of the group is to record themselves (approx 30 seconds each). You should be explaining your role and dress or have something that symbolizes who you are and your appointed duties.
